

Monthly Activities Report for January

Date: 5th Feb 2020

Village: Ti Lone village

Township: Loikaw Township

Country: Myanmar

On the month of January, KEGs went to the Ti Lone group villages, Loikaw township with the help of TBCs activities plans for stakeholder engagement meeting in doing community forest areas in their village. In their Ti Lone villages group areas have their own maintaining forest areas from each village. However, each village just try to maintaining only their village forest areas and try to stole log from the other village forest areas. The villagers try to announce and also making the notice board for maintaining forest areas however, some are does not respect and still stealing the log. Some of the villages try to maintain the forest just for the water resources and also for the safe from the forest fire in the summer season.

According to the villagers, the Myatta foundation came and gave the tree planting and agricultural training in this Ti Lone groups. In this community do not have the forest committee, they just maintain the forest with the care of village head and village elders because they do not have the enough budget for protecting of forest areas. When KEG went to their village, they required some budget for making proper forest areas, capacity building training and for making notice board.

After that, KEG came out with the follow up plans that coming raining season, they will come back to this village and will meet with the village elders, youth and villagers in order to make the proper community forest areas and for planting the trees activities.
